Hi Tim:

Info Gina would like, see below. This is just a reminder to discuss this item Thursday, because I'll forget...

Sure, I'll ask. I believe Tim keeps up with this.
As far as reimbursement from the region or PRP, no idea, I'll look into.

Scott - When you are in KC, can you please check in on the ASPECT budget?

Specifically, I want to get some data on what the burn rate has been for ITC and how much has come out of our budget so far. Then - I would like to know what that does to our budget for the rest of the response season.

We usually budget for an emergency deployment or two - but I would like to make sure a) we have ample funds headed into hurricane season, and 2) we have ample

capacity (this has been an issue in the past). Also - I assume that eventually the Agency will get reimbursed by the PRP. But - in the meantime, does the Region reimburse us first and then get it from PRP? Or - do we wait until everything is said and done with the PRP (which, could take years, I assume)?

Thx.
